

Production Process Classic Handkerchiefs

Our classic handkerchiefs are made of 3-ply or 4-ply tissue material. The foil can be printed from 2 to 8 colours. The tissues are fully automatically cut, folded and packed.

Standard packaging goes per 10(2x5) in a foil. Other packaging options are possible on request.

24 foils of 10 units fit in a standard carton box. Shipment goes per pallet of 80x120cm. Max 7 cartons go on one layer on this pallet. The maximum amount of layers is 8. So total $8 \times 7 \times 24 \times 10 = 13.340$ units per pallet.

Colour of closing sticker

All packs are resealable by the use of a closing sticker. Below you find our standard colour range for this sticker where you can choose from freely.
