

The production of our sachets takes place under the most hygienical circumstances with modern printing and filling machines. The printing as well as the filling process is done on the same location so we are in control of the complete production process. For this reason we can guarantee a top quality end product. Our factory is fully ISO 9001: 2000 and ISO 14001 certified.

Having the printing and filling process in one hand makes us one of the most versatile manufacturer of wet wipes in Europe. We print sachets already from 2.000 units onwards with flex printing and from 25.000 units with CMYK process printing. We supply all kinds of tissue and packing materials and can pack almost any liquid product you want.

All sachets are carefully packed in carton boxes and can be shipped all over the world.
